PROJECTS

REST Countries API	HTML5, CSS3, Tailwind CSS, JavaScript, ReactJS	GitHub	Live Preview
---------------------------	--	------------------------	------------------------------

- Developed a **REST Countries API project** to fetch and display country data dynamically using HTML5, CSS3, Tailwind CSS and ReactJS
- Implemented light/dark mode toggle, allowing users to switch between themes for better user experience.
- Built intuitive search functionality for filtering countries by name and region, improving usability and navigation..
- Integrated API error handling and shimmer Loading effect to ensure a seamless user experience, with appropriate loading and error states.
- Focused on responsive design principles, making the project mobile-friendly and accessible on various screen sizes.

Rock Paper Scissors game	HTML5, CSS3, JavaScript	Live Preview
---------------------------------	-------------------------	------------------------------

- Developed an interactive **Rock Paper Scissors game** with dynamic UI using HTML, CSS, and JavaScript. .
- Implemented a button that displays game rules, providing users with clear instructions. .
- Incorporated local storage to persist the player's score, ensuring continuity across sessions.
- Added a "Reset Score" feature, allowing users to reset the game's progress easily.
- Designed the game to be fully responsive, offering an optimal experience on devices of all sizes.

CERTIFICATIONS

- **Web Development** - Academor [View Certificate](#)
- Completed: March 2024
- Gained a deep understanding of front-end technologies such as html5, css3, JavaScript, including ES6,
